SEPTEMBER 2024

South Africa's inflation is easing up, cooling its paws for the third month in a row, down to 4.4% in August 2024.

The SARB finally threw us a bone and cut its key interest rate by 25 bps in September - It's the first rate drop since the pandemic of 2020.

The trade surplus took a bit of a snooze, dropping to R5.6bn in August 2024, marking the smallest surplus since January 2024.

The FTSE/JSE All Share Index is barking with excitement, having its strongest 3rd quarter in 11 years.

Shih Tzu Not! The CSI 300 pounced with a whopping 21.4% jump in the final week of the month, its biggest weekly leap since 2008.

Gold strutted its stuff, climbing around 13% over the last quarter and showing the world it's the top dog, outperforming both global equities and bonds.

MSCI World (Global Equities), MSCI Emerging Markets (Emerging Markets), FTSE/JSE All Share (Equities), FTSE WGBI (Global Bonds), Beassa ALBI (Bonds), USD/ZAR (US\$) were used as indices for each asset class

IMPORTANT INFORMATION

UNDERSTANDING

While every effort has been made by Corion Capital to ensure that the information contained in this report is accurate and up to date, no representations or warranties are made or given as to the accuracy and suitability of the information contained therein for any particular purpose. Corion Capital shall under no circumstances whatsoever be liable or responsible for any damages or loss, whether direct or indirect, or whether in contract or in delict, which may be incurred or suffered arising out of the use of this report.

➤ THE CORION REPORT

- Designed to provide a high level overview of the Industry.
- Focused on the short term and main ASISA Classifications.
- Given the focus, no meaningful conclusions should be made.
- Minimum fund size to be included is R100 million.
- Given strict timelines, all CIS return are pre month end sign off.
- Funds without an updated price at the time of compiling, have been omitted.

➤ PERFORMANCE CALCULATIONS

- Performance numbers are sourced from Morningstar.
- Performance is calculated after fees using NAV to NAV.
- Income distributions are included in the calculations.
- The applicable taxes are not included in the calculation.
- Individual returns will differ based on investment dates.
- Past performance is not a guide to future performance.

➤ COLLECTIVE INVESTMENT SCHEMES (CISS)

- CISSs are generally medium to long-term investments.
- The value of participatory interests may go down or up.
- CISSs have different classes of units and fees and charges.
- A Fund may borrow up to 10% of the funds NAV.
- If applicable, commissions will be included in overall costs.
- A schedule of fees and charges are always available on request.
- Actual annual performance figures are available to existing investors on request.

BCI is an authorised Management Company registered according to the Collective Investment Schemes Control Act (CISCA) 45 of 2002, supervised by the Financial Sector Conduct Authority (FSCA). BCI retains full legal responsibility for the co-named Corion BCI CIS's. Corion Capital is FSCA approved and appointed investment manager of the Corion BCI CIS's.

GENERAL

The returns shown are only signed off after the 5th business day post month end. Consequently distributions for some funds might not be reflected in the return data and some fund returns are subject to change. The investment performance is for illustrative purposes only. The investment performance is calculated after taking the actual initial fees and all ongoing fees into account. The reinvestment of income is calculated on the actual amount distributed per participatory interest by using the ex-dividend date NAV price of the applicable class of the portfolio, irrespective of the actual reinvestment date.

Investors should take cognisance of the fact that there are risks involved in buying or selling any financial product, that the past performance of a financial product is not necessarily indicative of the future performance and that the value of financial products can increase as well as decrease over time, depending on the value of the underlying securities and market conditions. Portfolios which contains offshore exposure can result in additional material and other risks, potential constraints on liquidity and the repatriation of funds.

- (a) collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending;
- (b) a schedule of fees and charges and maximum commissions is available on request from the manager; and
- (c) The manager does not provide any guarantee either with respect to the capital or the return of a portfolio.
